**GARDENS AT
THE CAPITOL**

**Experiments in a
Neglected
Corner.**

**WILL IMPROVE
THE APPEARANCE**

**Some Varieties of Stock Feed
Grasses Planted to Supply
Heavy Demands.**

In the corner of the Capitol grounds
at the junction of Hotel and Likeli-
ke streets, which has long been unused
and neglected, except for depositing rub-
bish and collecting dirt heaps, the Com-
missioner of Agriculture has begun the
propagation of various kinds of forage
grasses for stock feed, vines and plants,
which are to form a reserve depot to the
Government nursery for supplies of this
character. Since the Rapid Transit
cars have been running on Hotel street
and have made it as important a thor-
oughfare as many of the larger streets,
the unused corner has also become an
important part of the Capitol grounds,
and it will soon be transformed from a
neglected spot into one teeming with
sturdy grasses; the dirt heaps will be
levelled, the refuse carted away, and
the old bungalow used by the National
Guard will soon be covered over with
vines.

Commissioner Taylor is now experi-
menting with Buffalo, Guinea, blue and
panicum grasses. Fourteen beds each
twenty feet long and six feet wide have
been made and the number will soon
be increased to twenty-five. The beds
will be made the depot for supplying
these varieties of grass instead of send-
ing to the other islands for them as
heretofore. The grass spreads very
rapidly and only a few roots are neces-
sary for a person to start a large area
of it on his premises. These are all
forage grasses, intended as feed for
horses and cattle. He will also put in
the Kentucky, or blue grass, intended
for lawns. Palms have been set in
musk and water melons are growing,
and in a short time the appearance of
the corner will be much altered. The
vines of the melons have been attacked
by insects and are not thriving as they
should, but an experiment is being
made with a straw covering.

Alfalfa, wheat, sorghum, red and
Japan clover, jute, Egyptian cotton, dry
land rice, white lupin, velvet beans and
a few more specimens will also be
planted for experimental purposes. These
enrich the soil and the experiments
will be closely watched. In fact, the
entire proposition is in the nature of
an experiment.

A station has also been started in
Nuuanu valley about three-quarters of
a mile below the Pali, near the for-
ester's residence. The laborers are en-
gaged in putting in trees on the left
side of the road, two men doing nothing
but clear the ground of weeds and grass
that their growth may be retarded. For
rainy seasons a house has been
provided in which the men will work
on the seeds and shoots. Thousands of
forest trees are being propagated, and
new varieties are about to make their
appearance. These are the poplar, elm,
hickory, pecan, catalpa, acacia, or for-
eign koa. The latter is very much like
the native koa, but is not so suscep-
tible to the attacks of insects.

The Commissioner has sent away for
twenty-five bushels of cow peas, a
splendid food for stock. He sent to
North Carolina, practically the home of
the cow pea. He is also trying to get
the pennyroyal planted as an enemy of
the mosquito.

**BIRTHS MUST
BE REGISTERED**

**Hilo Reports as Many Every
Month as Honolulu—Prose-
cutions.**

The Board of Health, through Exe-
cutive Officer Pratt, has begun an active
campaign against violators of the law re-
quiring registration of births, deaths, etc.
The arrest Monday was the first step
in the movement, and Dr. Pratt said yes-
terday that every person failing to regis-
ter births hereafter will be prosecuted,
whenever the necessary evidence can be
secured.

Since the signing of that case, there has
been a slight increase in the number of
births reported, but there are still no
doubt many in the city who openly dis-
regard the law, which reads as follows:
"Section 963. It shall be the duty of
the father of each and every child born
in the Territory of Hawaii, or if the
father be absent from the country at
the time of the birth, or not living, or
if the child be illegitimate, then & shall
be the duty of the mother of such child,
within thirty days after the birth of
such child, to notify the Registrar of
Births, Deaths and Marriages of the
district in which such birth takes place,
of the date of birth, sex and name of
such child, if named; the names of the
parents of such child, whether it be
legitimate or illegitimate, and the locality
of the birth.

"It shall also be the duty of every
physician who shall attend, or be called
upon in connection with the birth of
any child in the Territory of Hawaii,
within thirty days after such birth, to
report such birth and the other facts
relating to such child in this section
above set forth."

In Hilo for the month of August, there

were thirty-six births, while Honolulu,
though many times larger in population,
boasted of only the same number. Last
month Hilo reported thirty-one births,
where there were but thirty-nine in this
city. The disparity is so evident that
there can be no doubt of the numerous
violations of the law, and offenders are
hereafter to be prosecuted.

The Chinese obey this statute better
than any other nationality, but they do
it with reason, for without proof of birth,
no Chinese may remain in the islands,
under the present exclusion law. A few
more heavy fines in this matter will
teach some of the neglectful ones a les-
son, and the Board of Health intends to
continue the prosecution until the re-
cords of births, and other vital statistics,
are as complete as they should be.

TALKING UP THE CABLE.

**Senator Clark of Wyoming Says Mac-
kay Line Will Materialize.**

United States Senator C. D. Clark,
of Wyoming, is at the Knutsford.
When asked last evening about the
reported gusher well at Fossil, the
Senator merely smiled and said a cor-
respondent up there had notified him
that all the oil that "gusher" was
throwing could be contained in a tea-
cup.

When asked about the outlook for
the winter at Washington, the Senator
said: "The coming session of Congress
will be noted for the large amount of
business done. An isthmian canal will
surely be put through, presumably via
Nicaragua, though there is a possi-
bility of such exigencies arising as may
bring the Panama canal under United
States control. The Pacific ocean cable
scheme will certainly materialize, and
the cable be laid via Honolulu rather
than by the Aleutian Islands and Jap-
an. The Honolulu route is the deep
water and costliest route, but the cable
will be entirely in American territory,
and in no danger of being tampered
with by aliens. There is the greatest
confidence in the new President. He
is a level-headed careful man, and will
make a most excellent Executive."
Salt Lake Tribune.

**BULLER HAS LEFT
ARMY OF BRITAIN**

**Indiscreet Speech of General Im-
mediate Cause of His
Dismissal.**

LONDON, Oct. 22.—The War Office
announces that after a consideration of
all the circumstances of General Bul-
ler's speech of October 10 and the ex-
planations thereof furnished by General
Buller, he has been relieved of his com-
mand and placed on half pay. The King
has approved the appointment of Gen-
eral French to succeed Buller as com-
mander of the First Army Corps, the
appointment to become effective when
French's services are no longer required
in South Africa. Pending his return,
General Hildyard will assume com-
mand.

General Buller's supersession was not
unexpected, but the manner of it has
caused a sensation. It is understood
that the Government endeavored to
break the fall by giving him the option
of resigning, but that Buller declined
to give way. The morning papers all
express sympathy for the unfortunate
ending of a brilliant career, but they
are unanimous that no other course was
open after his indiscreet speech, and
they express the greatest approval of
the selection of General French to suc-
ceed him.

The Daily Chronicle and the Daily
News attack the Government for weak-
ness and lack of courage in ever ap-
pointing General Buller to the command
of an army corps.

The Times, confirming the report that
General Buller preferred dismissal to
resignation, expresses astonishment at
his amazing defects of judgment and
sense of military discipline, and says
it hopes the change is the beginning
of an era of real army reform.
